

SLIMLINE BATTEN

The Slimline Batten is compact and unique. It's an ideal surface-mounted, complete LED upgrade to replace fluorescent batten. Combining its low-profile design and broad beam angle, the Slimline LED Batten is a bright, modern, efficient light solution with an elegant and minimalistic design.

Available with dual motion & lux sensor.

The batten built in dual motion & lux sensor is easily controlled by the Emerald Planet Universal Remote Control (sold separately). The handheld remote switches the sensor on & off and adjusts hold time, stand by periods and stand by dimming levels. The remote control also includes 4 pre-set program options to choose from. You have the choice to set your own preferences or select from one of the pre-set arrangements.

FEATURES

- Lightweight
- Slimline
- Easy to install
- Flex & plug included
- Dual motion & lux sensor
- Available with built-in sensor
