UNIVERSAL REMOTE CONTROL

UNIVERSAL REMOTE CONTROL
SUITABLE FOR A RANGE OF PRODUCTS

The Emerald Planet Universal Remote Control is an easy to use infrared remote control for everyday use across a range of Emerald Planet products. The battery powered (2x AAA batteries included) handheld remote control can be used to switch the sensor on or off, dim the luminaires, change the colour temperature and adjust hold time, stand by period and stand by dimming level.

Additionally, the remote control also includes 4 pre-set program options to choose from. You have the choice to set your own preferences or select from one of the pre-set arrangements.

Compatible with the LED Sonar High Bay, 15W LED Uni Batten and 17W LED Vanguard Panel.

FEATURES

- Control your lighting from the ground
- Suitable across a range of Emerald Planet lighting products
- 4 pre-set programs
- Program memory
